e3 introduces BIG DATA GLOBAL, delivering great value 4G data, with no commitments, unlimited usage and coverage across the world.

Palma de Mallorca – 15 February, 2019: Palma-based e3 Systems, the leading independent communications integrator, today announced the immediate availability of BIG DATA GLOBAL, the latest addition to its BIG DATA family of SIMs.

With no minimum commitments and no limits on usage, BIG DATA GLOBAL offers exceptional connectivity and unbeatable value.

BIG DATA GLOBAL works across all of **Europe (including Montenegro), the Caribbean, the US, Pacific Islands, South-east Asia, Australia, New Zealand** and far beyond.

"Our BIG DATA SIMs have been really successful because they offer such flexibility and great value. And now, with BIG DATA GLOBAL our customers can sail the world with just one SIM," says Ana Espallardo, Product Manager at e3.

BIG DATA GLOBAL comes with a range of benefits:

- **Rates from just €4.5/GB**
- **Use more, pay less**
- **Pay only for the data you use**
- **One single SIM for all areas**
- **No upgrades or downgrades necessary**
- **Free seasonal suspension**
- **Automatic blocking outside of territories**
- **No minimum commitment required**
- **Check daily usage in my.e3s.com**

About e3 Systems

As the leading independent communications integrator for the yacht, maritime and mobile satellite sectors, e3 keeps you connected whenever you want, wherever you go. Its HYBRID solution offers uninterrupted connectivity by seamlessly synchronising VSAT and 4G data, together with an extensive portfolio of services covering IT and networks, TV, cyber security and a full vessel Support Operations Centre. For maritime, e3 is a "Specialist Sales Distributor" for Kymeta's flat panel terminals and a Tier 1 partner for Inmarsat's flagship Fleet Xpress and FleetBroadband services. The company operates from Europe and the USA with a network of partners worldwide. It is part of the marine electronics group grupoarbulu.
